

The Connecticut Poison Control Center is a service of the University of Connecticut Health Center

To expedite a consultation, clinicians should provide the following case information about the poisoning:

- ☒ ☠ Poison identification: Item brand name or ingredient or intended use of item or description of flora or fauna**
- ☒ ☠ Route of exposure**
- ☒ ☠ Dose or duration of exposure**
- ☒ ☠ Time since exposure**
- ☒ ☠ Patient age, weight, symptoms, general health status**
- ☒ ☠ First aid or treatment thus far**
- ☒ ☠ Patient name**

Clinicians should identify themselves and the agency to the Poison Information Specialist.

The Connecticut Poison Control Center is a healthcare provider and an exempt entity in the HIPPA legislation.

This project was supported through a grant from the Health Resources and Services Administration, U.S. Department of Health and Human Services.
